EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife. Please see our website for the latest information: <http://www2.epa.gov/goldkingmine>
Regular updates will be posted as they are available.

Comments:

Hello,

I'm just trying to discern the likelihood of the contaminated waters reaching the El Paso County.

I'm from El Paso and still have family there. I know that El Paso gets its water supply from both surface water and ground water and my family has been asking me questions as I'm the family's go-to person for anything environmental.

Thank you for your efforts in this unfortunate incident.

Sincerely,

Catherine Sotelo
